

THE PHARMACEUTICAL COMPLIANCE FORUM

www.pharmacomplianceforum.org

About the Pharmaceutical Compliance Forum, Inc. (PCF): The PCF is a coalition of senior compliance professionals and legal counsel from more than 60 of the largest research-based pharmaceutical manufacturers. The PCF was founded in early-1999 by compliance professionals from the pharmaceutical industry to promote effective corporate compliance programs. The organization is open to others in the industry and has more than doubled in membership since its founding. The members meet twice a year, for two days, focusing on open and informal sharing of compliance information, best practices, and current developments in the field, and sponsors a three-day compliance congress each Fall.

Mission Statement: The purpose of the PCF is to discuss education and other industry practices regarding compliance with the ultimate aim of promoting effective pharmaceutical corporate compliance and ethics programs in accordance with the Federal Organization Sentencing Guidelines and the OIG Compliance Guidance for Pharmaceutical Manufacturers.

History: The Forum held its first meeting in June 1999. Currently, the PCF plans to meet semi-annually in March and September. The emphasis at the meetings is networking with peers and informal sharing of compliance information so that the members can improve the preventative legal and compliance efforts of their respective companies. The PCF will not establish standards.

The PCF currently is comprised of companies within the research-based pharmaceutical and biotechnology industry. Each of the companies has implemented a compliance program. Generally, representatives from the companies who attend the meetings are compliance officers, compliance attorneys or other professionals with responsibility for oversight or other aspects of their respective corporate compliance programs.

MEMBERSHIP

Member companies designate a primary or key contact. Everyone in your company who you approve and send us their name and contact information will get our normal membership mailings and be able to participate in PCF Events and sponsored events; the primary contact is for purposes such as new company registration and collection of our annual participation fee.

In order to bring PCF to an even higher level, to develop a quality website for its members and to enhance our compliance educational and networking events, we ask each participating company to support the PCF by paying a nominal annual participation fee of \$2,800.00. Please remember this fee is per company not per employee active in PCF.
